2013 Activities

Africa in 2013 got involved in many activities that helped to move the LIS profession forward. South Africa and Namibia were the main host countries for most of Africa's events for 2013. The University of South Africa Library, the International Federation of Library Associations and Institutions (IFLA), the Regional Office for Africa and IFLA Africa Section, hosted the second African library summit under the theme, "The Horizon and Beyond", from 2 – 3 July 2013. This event was hosted on the University of South Africa, Muckleneuk Campus, Pretoria, South Africa. During this summit, many exciting workshops were organized and a project for emerging leaders was launched with many young African library professionals involved from different African countries and being the first of its kind. These leaders were sponsored to attend the summit. Another historic feature of the summit was the launching of the African Library and Information Associations and Institutions (AfLIA), African Public Libraries Network (APLN) and Conference of African National Libraries (CANL). Besides the Library summit in Pretoria, South Africa, a symposium was organized in Namibia. This was a rendezvous point for African Library professionals who had a great opportunity of enriching the LIS profession. The theme of the symposium was directly linked to the theme of the current IFLA President, which is, "Strong Libraries, Strong Societies". This symposium took place in October 2013. The Africa section held its midterm meeting in Abuja, Nigeria from 6 – 9 February 2013.

2014 Activities

The Africa Section midterm meeting was held in Kumasi – Ghana from 8 – 9 February 2014. This was immediately followed by a regional convening of the Building Strong Library Associations (BSLA) co-hosted by IFLA and AfLIA in Ghana with 45 persons in attendance. This BSLA meeting took a regional form after a country form with Cameroon and Botswana being among the first of the beneficiaries. IFLA Africa Section and the IFLA Section on Children and Young Adults are working on cohosting an open forum in Lyon – France during the WLIC on the theme, "Libraries in Africa meeting the needs of children and young adults". There will be over eight papers to be presented if all goes as planned. Africa through the Library and Information Association of South Africa (LIASA), is currently working very hard towards hosting the IFLA WLIC 2015.

She started off by informing that the draft English version of the AFLIA constitution was sent out to be translated into French and Portuguese. The translation into French was to be coordinated by Mrs. Marietou Dioup of Senegal but so far nothing has been done while the translation into Portuguese has been completed, thanks to Mr. John Tsebe's support. She said quite a few reactions have been received from different countries that are in support of AFLIA and with proposed adjustments to the draft constitution. She went on to remind that in Helsinki, Finland, it was decided that an Interim Committee will be elected in Nigeria and inaugurated in Pretoria in July during the African Library Summit. Following this update, Dr. Shawky

indicated that he got the draft constitution translated into Arabic and sent it out to several Arab bodies but only got two feedbacks.

13) IFLA WLIC 2013, Singapore Update

Key initiatives such as the ICADLA activities, Public Library networks in the different countries, AfLIA, etc were cited. That the Poster should show case Africa and not only Southern Africa. SC members were called upon to provide interesting initiatives in their various countries that can enrich the Poster. The Chairperson added that if the SC is determined, it can actually win the Poster competition in Singapore.

With respect to the Open Forum, the chairperson informed that 18 abstracts had been received and four will be selected the following day. She requested members to finalize the study of the abstracts in the evening to facilitate the selection process.

16) Africa Caucus

It was reminded that an African, Dr Buhle Mbambo-Thata, was contesting for the post of IFLA President and it is important for SC members to do everything to support her so that it can come to Africa. The Chairperson added that this can only be done through voting. Thus, it was important for all member institutions to pay their dues or register with IFLA to be able to vote. The Chair equally informed that Mrs. Ellen Namhila was the African candidate for the Governing Board and needs all the SC members’ support.

17) IFLA HQ

The Governing Board member, Dr. Mbambo-Thata was given the floor to provide update on IFLA. Dr. Mbambo-Thata started by presenting the IFLA focus areas. These include:

- The IFLA International Leaders Programme.
She said this Programme is currently going on and started in Helsinki, Finland in August 2012 with 5 African participants out of 12 and with two advisers from Africa, Dr. Asamoah Hassan and Mrs. Were. At the end of the programme, IFLA will have these leaders as its advocates. The leaders programme was instituted to complement the Building Strong Library Association (BSLA) project, she added.
- The BSLA Project
With respect to this she said the the BSLA project is an IFLA project aimed at building strong library associations in developing countries. Two African countries benefited from this project from the on set, Botswana and Cameroon. This is a very useful project but unfortunately, funds are not available to enable more countries benefit. Notwithstanding, countries are called upon to use the BSLA resources (on IFLA website) to train. A good example of this kind of move is the Kenyan Library Association.
- Programme on Advocacy. IFLA considers this programme very important and sees the Beyond Access Programme as an important advocacy programme.
- There is equally the Public Libraries Project that is equally very important, she stated.
- The African Library Summit as a regional body is considered very useful in reinforcing IFLA activities.
- SCECSAL is now seen as an area for IFLA activities to be strengthened. As a result, IFLA encourages regional programmes which it considers as useful ways of strengthening IFLA activities. Dr. Mbambo-Thata went on to state that the issue of funding has been quite challenging and explains why there was no call for small projects in 2012. IFLA considers creating regional partnerships with governments and raising funds at regional level in order to sustain its activities and projects.

18) Africa Libraries Submit

- After the GB update was the presentation of the draft programme of the Library Summit for appraisal by the SC members. The Summit is billed for July 2013 in Pretoria, South Africa. It was highlighted that the Summit has a series of workshops that will attract a registration fee which stands at \$120

(2000 Rands) given that the workshops will be skill building events. Library leaders were encouraged to sponsor their young librarians in the public libraries to attend this Summit.

- With respect to national Library forum; it was observed that in some countries, national libraries and public libraries are one or just called National Library Service. As a result, it was suggested that one National Library Forum be held with different aspects of the Forum for the different sectors of national library or public libraries. That the public library group be allowed to discuss whether to merge with the national library forum. It was indicated that the workshop 3 of day one was an opportunity for this discussion to take place.
- It was added that the Public Libraries Network be put on the agenda of the Summit. After critical discussions on the Public Libraries Network, it was resolved that a strongly worded letter be written to the team responsible for the Public Library Network project explaining what Africa stands to lose if they do not live up to expectation. And if they cannot deliver, then they should say so and some other people will be gotten to do the project or if some skills are needed for the results to be got, then the SC will go ahead to provide such skills. Besides this, it was equally suggested that people willing to do the work of creating the public library network be identified and put to work so as to get results before the July Summit.
- Dr. Mbambo-Thata informed that the Gates Foundation is not giving much money for the Summit. She informed that these Foundations complained of spending money to bring people just to Chair sessions in the last Summit. The reason why some names are repeated to is cut down on costs. She requested for the Summit to be advertised widely for people to be able to bring themselves. She indicated that IFLA Africa Section will partly fund the launch of AfLIA. At this juncture, a 7th workshop was proposed for the Africa Section Strategic Planning. (See the corrected version of the draft programme of the Summit).

19) 2013 IFLA Africa Section Abstracts

- SC members settled down to study the 2013 IFLA Africa Section abstracts for the Forum in Singapore during the IFLA WLIC. The Chair informed that a total of 18 abstracts had been received and sent to members to study before this meeting. She went on to present the following criteria for the selection of abstracts.

1. Quality
 2. Relevance to the theme
 3. Projects must have been completed
 4. Regional and language balance.
 5. Projects should not have been presented elsewhere before now.
- It was suggested that, there was need to keep a database of the papers presented for about five years so that papers do not repeat themselves. SC members later settled down to study and select the possible papers. In the final analysis four papers were selected for presentation with a fifth one as a stand by paper.

List Paper Titles and Authors with addresses please.

20) Africa Section Strategic Plan

The IFLA Africa Section Strategic Plan was discussed goal after goal to determine the progress and those that needed adjustment or restructuring. Goals 7 and 8 were revised. (See revised strategic plan).

21) Election of the Interim Committee of AfLIA

- The Chair of the IFLA African Section sent out a call for nominations to the various positions of the AfLIA Interim Committee in good time. Unfortunately only about 60% of SC members reacted to this call, the Chair informed. She went ahead to read out the results of what she got from the call. She went on to inform that there was no funding available for AfLIA and thus people should nominate only person's whom they were sure will be able to attend meetings. The floor was then opened for discussions. After the discussions the following were nominated:
 - 1) Dr. Helena Assamoah-Hassan as chairperson.
 - 2) Mrs. Valentina Bamnerman.

Regional Representatives nominated include:

- 1) Dr. Shawky Salem for North Africa.
 - 2) Mr. Alim Garga for Central Africa.
 - 3) Mrs. Jacinta Were for East Africa.
 - 4) Kathy Matsika Southern Africa (Stepped down).
 - 5) Alh. Rilwanu Abdulsalami for West Africa.
- After discussion on the issue of the treasurer of AfLIA, it was concluded that, given that no funds existed yet, the Interim Chair could manage this

post concurrently with her Chair in the beginning as a search for a Treasurer continues. This view was generally supported by the floor.

- Elections of nominated members were done with all nominated so far, elected. Dr. Asamoah-Hassan was then given the floor to react to her election as the Interim Chairperson of AfLIA.
- It was informed that the term of office of the Interim executive of AFLIA was two years.
- Dr. Asamoah-Hassan informed that if the section wanted Ghana to host the AfLIA Secretariat, then there was need to write to the Ghana Library Association, the Consortium of Ghana Libraries and the Minister of Education of the Republic of Ghana. The Africa Section SC members promised to give Dr. Asamoah-Hassan and her team all the support they could. The other elected AfLIA members will be communicated. Thus the IFLA Africa Section meeting of February 2013 brought to birth AfLIA and an Interim Executive for a period of two years.
- **Next IFLA Africa Section Standing Committee meeting**
It was decided that given that the AfLIA secretariat was going to Ghana at its birth, Ghana should host the next IFLA Africa SC meeting. Notwithstanding, if there is a need for a change, members will be informed.
