Global indicator framework for the Sustainable Development Goals and targets of the 2030 Agenda for Sustainable Development

Sustainable Development Goal indicators should be disaggregated, where relevant, by income, sex, age, race, ethnicity, migratory status, disability and geographic location, or other characteristics, in accordance with the Fundamental Principles of Official Statistics.¹

Goals and targets (from the 2030 Agenda for Sustainable Development)

Indicators

Goal 1. End poverty in all its forms everywhere

1.1 By 2030, eradicate extreme poverty for all people everywhere, currently measured as people living on less than \$1.25 a day

1.2 By 2030, reduce at least by half the proportion of men, women and children of all ages living in poverty in all its dimensions according to national definitions

1.3 Implement nationally appropriate social protection systems and measures for all, including floors, and by 2030 achieve substantial coverage of the poor and the vulnerable

1.4 By 2030, ensure that all men and women, in particular the poor and the vulnerable, have equal rights to economic resources, as well as access to basic services, ownership and control over land and other forms of property, inheritance, natural resources, appropriate new technology and financial services, including microfinance

1.5 By 2030, build the resilience of the poor and those in vulnerable situations and reduce their exposure and vulnerability to climate-related extreme events and other economic, social and environmental shocks and disasters

1.1.1 Proportion of population below the international poverty line, by sex, age, employment status and geographical location (urban/rural)

1.2.1 Proportion of population living below the national poverty line, by sex and age

1.2.2 Proportion of men, women and children of all ages living in poverty in all its dimensions according to national definitions

1.3.1 Proportion of population covered by social protection floors/systems, by sex, distinguishing children, unemployed persons, older persons, persons with disabilities, pregnant women, newborns, work-injury victims and the poor and the vulnerable

1.4.1 Proportion of population living in households with access to basic services

1.4.2 Proportion of total adult population with secure tenure rights to land, (a) with legally recognized documentation, and (b) who perceive their rights to land as secure, by sex and type of tenure

1.5.1 Number of deaths, missing persons and directly affected persons attributed to disasters per 100,000 population

1.5.2 Direct economic loss attributed to disasters in relation to global gross domestic product (GDP)

1.5.3 Number of countries that adopt and implement national disaster risk reduction strategies in line with the Sendai Framework for Disaster Risk Reduction 2015–2030

1.5.4 Proportion of local governments that adopt and implement local disaster risk reduction strategies in line with national disaster risk reduction strategies

Goal 16: Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels

More than 570 different trafficking in persons flows were detected between 2012 and 2014

Many regions of the world continue to suffer untold horrors as a result of armed conflict or other forms of violence that occur within societies and at the domestic level. Advances in promoting the rule of law and access to justice are uneven. However, progress is being made in regulations to promote public access to information, albeit slowly, and in strengthening institutions upholding human rights at the national level.

► Nearly 8 in 10 children aged 1 to 14 years were subjected to some form of psychological aggression and/or physical punishment on a regular basis at home in 81 countries (primarily developing), according to available data from 2005 to 2017. In all but seven of these countries, more than half of children experienced violent forms of discipline.

► More than 570 different flows involving trafficking in persons were detected between 2012 and 2014, affecting all regions; many involved movement from lower-income to higher-income countries.

► In 2014, the majority of detected trafficking victims were women and girls (71 per cent), and about 28 per cent were children (20 per cent girls and 8 per cent boys). Over 90 per cent of victims detected were trafficked for sexual exploitation or forced labour.

► The proportion of prisoners held in detention without being sentenced for a crime remained almost constant in the last decade: from 32 per cent in 2003-2005 to 31 per cent in 2014-2016.

► Almost one in five firms worldwide report receiving at least one bribery payment request when engaged in regulatory or utility transactions.

► Globally, 73 per cent of children under 5 have had their births registered; the proportion is less than half (46 per cent) in sub-Saharan Africa.

► At least 1,019 human rights defenders, journalists and trade unionists have been killed in 61 countries since 2015. This is equivalent to one person killed every day while working to inform the public and build a world free from fear and want.

► Freedom-of-information laws and policies have been adopted by 116 countries, with at least 25 countries doing so over the last five years. However, implementation remains a challenge.

► Since 1998, more than half of countries (116 of 197) have established a national human rights institution that has been peer reviewed for compliance with internationally agreed standards (the Paris Principles). However, only 75 of these countries have institutions that are fully compliant.

TARGET 11.4

PROTECT THE WORLD'S CULTURAL AND NATURAL HERITAGE

11.4 Strengthen efforts to protect and safeguard the world's cultural and natural heritage

11.4.1 Total expenditure (public and private) per capita spent on the preservation, protection and conservation of all cultural and natural heritage, by type of heritage (cultural, natural, mixed and World Heritage Centre designation), level of government (national, regional and local/municipal), type of expenditure (operating expenditure/investment) and type of private funding (donations in kind, private non-profit sector and sponsorship)

16.10 Ensure public access to information and protect fundamental freedoms, in accordance with national legislation and international agreements

16.10.1 Number of verified cases of killing, kidnapping, enforced disappearance, arbitrary detention and torture of journalists, associated media personnel, trade unionists and human rights advocates in the previous 12 months

16.10.2 Number of countries that adopt and implement constitutional, statutory and/or policy guarantees for public access to information

TARGET 16.10

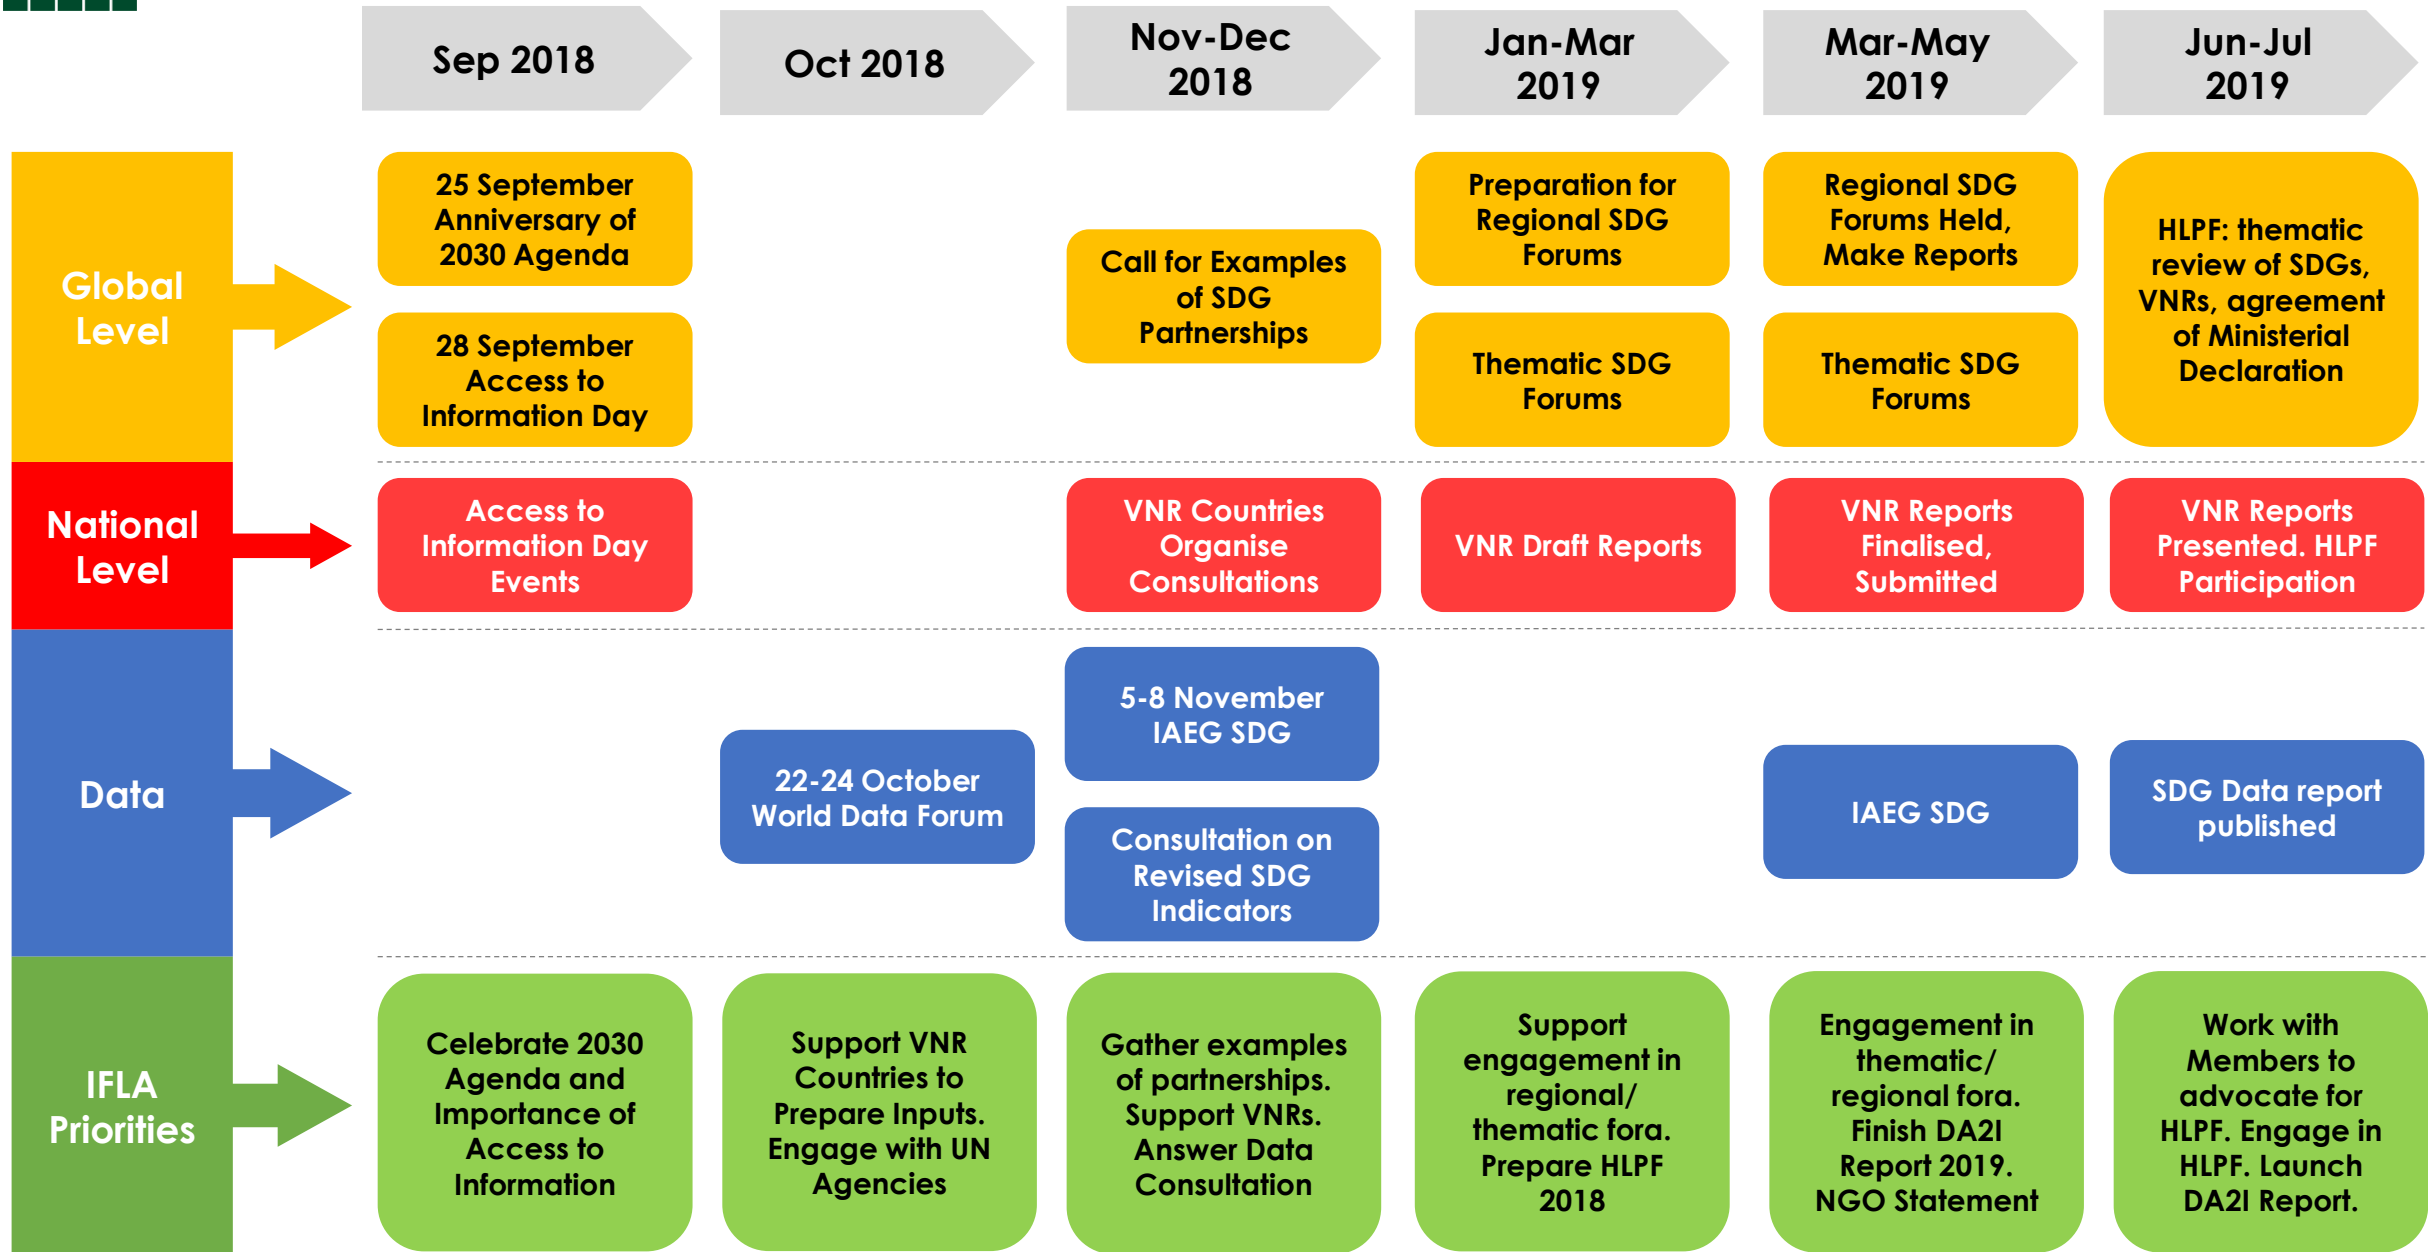

ENSURE PUBLIC ACCESS TO INFORMATION AND PROTECT FUNDAMENTAL FREEDOMS

Development and Access to Information (DA2I) »

The **United Nations 2030 Agenda for Sustainable Development** is a framework of **17 Sustainable Development Goals (SDGs)** with a total of 169 Targets spanning economic, environmental and social development. They lay out a plan for all countries to engage actively in making our world better for its people, with no-one left behind.

Libraries are key institutions for achieving the Goals. Over the last few years, IFLA has been actively involved with the creation of the UN 2030 Agenda, advocating for the inclusion of access to information, safeguarding of cultural heritage, universal literacy, and access to information and communication technologies (ICT) in the framework.

In **August 2015**, after more than three years of negotiations and intense
